MECTRON VET SCALER
COMPACT EFFICIENCY FOR VETERINARIAN USE

POWERFUL SCALING, RELIABLE TECHNIQUE, EASY HANDLING

MECTRON PIEZO ULTRASOUND TECHNOLOGY

Thanks to mectron piezo technology, the new vet scaler stands for high precision ultrasound. The built-in Feedback-System monitors performance and adjusts it when needed within only a few hundredths of a second. In any challenge the new vet scaler offers always the optimum performance. A definite advantage in terms of efficiency and comfort of treatment.

supra- and subgingival scaling in a dog with mectron vet scaler and insert SIV

handpiece fully sterilisable
optimum handpiece coupling with protection for preventing incorrect insertion

water connection enables pressure values between 1 to 6 bars
water filter prevents the passage of suspended particles and is easy to clean without needing any tools

Automatic Protection Control interrupts power in case of wear or incorrect fitting of an insert to the handpiece or any handpiece or handpiece cord defects. Delivery of the liquid is stopped automatically within less than 0.1 seconds and the flashing LED signals „check”.

easy to clean, plain housing
control with few push-buttons

The most common scaling inserts for veterinarian use (S1V and S6V) are very cost effective.
All the other Mectron ultrasound inserts, for a total of 41 tips, are available for the new vet scaler and cover an extraordinary variety of clinical indications. Their nitro-titanium coating on the surfaces makes them tougher than traditional ultrasound inserts.

VET SCALER EQUIPMENT
1 handpiece
2 inserts (S1V and S6V)
1 dynamometric wrench K6
1 footswitch
1 water line
1 water filter
