Course in English

**Essential Course:**

**Piezoelectric Bone Surgery**

Speakers: Tomaso Vercellotti and Claudio Stacchi

Saturday, November 14th, 2015

Rome, Italy
ESSENTIAL COURSE

The Essential Course is a basic start to using the techniques of Piezoelectric Surgery in maxillo-facial surgery and in the dental profession. The program allows you to acquire theoretical and practical skills with the ability to use Piezosurgery® technology. During the course, ample time is given to a hands-on approach until the participant reaches the required learning curve for each cutting technique. After this is achieved, the participants will come to understand the clinical benefits of each of the several techniques.

TOMASO VERCELLOTTI

Tomaso Vercellotti graduated in Medicine and Surgery cum laude in 1979 and specialized in Odontostomatology at University of Studies of Genoa in 1984.
Honorary Professor at UCL Eastman Dental Institute of London.
Visiting Professor in many Italian and International Universities.
Active member: AO, ICOI, EAO, SIdP (Italian Society of Periodontology).
International Speaker: AO, EAO, AAP, NYU, USC, ICOI.
Prof. Vercellotti is the 2005 recipient of the Andi Award from the Italian Dental Association for scientific and cultural merit.
Prof. Vercellotti is the inventor of Piezoelectric Bone Surgery.
He authored the first scientific clinical articles on Piezoelectric Bone Surgery, new surgical techniques and two chapters on the Piezoelectric Sinus Lift procedure in two books.
He is the founder of Piezoelectric Bone Surgery Academy for Advanced Surgical Studies, whose goal to teach is the Piezoelectric Bone Surgery and to offer continuing educational support to clinicians.
Prof. Vercellotti maintains a private practice limited to Periodontology and Implantology in Genova (Italy).
He is dedicated, for over 25 years, to clinical education and the rehabilitation of complex cases.

CLAUDIO STACCHI

Born in Gorizia (Italy) in 1964. Graduated in Dentistry (DDS) and specialized in Oral Surgery (MSc) at University of Trieste (Italy).
Professor in Oral Implantology at the School of Dentistry and at the Master Program in Oral Surgery at University of Trieste since 2007.
Active founding member of International Piezosurgery Academy, active member of the Academy of Osseointegration, member of ITI (International Team for Implantology), member of Italian Society of Osseointegrated Implantology (SIO) and of Italian Society of Oral Surgery and Implantology (SICOI).
Author of several publications on indexed journals and speaker at Italian and international congresses on oral surgery and implantology topics.
Program Essential Course

8.30 Registration

9.00 Scientific basics of piezoelectric bone cutting; Clinical and histological characteristics of the piezoelectric cut; Presentation of piezoelectric inserts and introduction to hands-on.

11.00 Coffee Break

11.30 Bone regeneration techniques with bone replacements and use of natural membranes (GBR, sinus lift etc.), implantology and ultra-sound preparation of implant sites.

13.00 Lunch

14.00 Practical excercises on animal bones with Piezosurgery. During the excercises the following techniques will be trained: osteoplasty, osteotomy and ridge expansion, bone block grafting, corticotomy, implant site preparation.

Placement of Sweden & Martina Implants.

Simulation of peri-implant defects and use of Geistlich materials to correct them.

16.30 Discussion with the speakers

17.30 End of course

NB: During the practical excercises the participants are grouped and the trials are performed rotative at different stations. Every participant excercises the techniques following his own learning curve until perfection.

It’s suggested to use your magnifying spectacle
